CS 410 Project Proposal

Reproducing a paper: Causal topic modeling

1. I am working as an individual. My name is Adam Ludy, my netid is ludy2.
2. I chose the paper about casual topic modeling. Mining causal topics in text data.
3. I plan on using python.
4. I believe I will be able to obtain the dataset used in the paper. I can access the NY Times articles from 2000 from these links: <https://spiderbites.nytimes.com/2000/>, <https://spiderbites.nytimes.com/2001/>
